

Serial No. 10/657,489

IN THE ABSTRACT

Page 4, lines 2-11 have been amended as follows:

A substantially rectangular or square sunshade formed of a static adhesive material is releasably mounted on an automobile's window. The sunshade ~~comprises~~ includes an elongated guide member along a lower edge thereof. The ~~[[, the]]~~ guide member ~~being is~~ is formed of relatively hard plastics. The ~~, and the~~ guide member ~~being is~~ is concealed in a lengthwise groove in an intermediate portion of the automobile's doorframe when the window is closed. A ~~with a~~ predetermined gap is ~~being~~ formed between the guide member and an adjacent intermediate edge of the doorframe so as to permit ~~[[a]]~~ free passing of the guide member either through the lengthwise groove into an interior cavity of the doorframe or out of the interior cavity prior to being concealed in the lengthwise groove.
